Last season's local crop of potatoes was a great disappointment. Their keeping and cooking qualities were both poor, and Long Island potatoes, generally the very best in the world, proved to a large extent soggy, discolored and lacking in the right taste and flavor. We have not seen in twenty-five years so many potatoes below grade in the New York market.

Good potatoes are exceedingly scarce and hard to get. Our buyers have searched the country all over, and only in one section of the old Pine

have searched the country all over, and only in one section of the old Pine
Tree State have they found potatoes that fill our requirements. They are
the famous Green Mountain variety, grown in Maine. We contracted for
the pick of the crop and arranged for special shipments. One of these
thipments has just arrived and we will sell them for
three days at one-half their real value in this market.
They are white, sound, medium sized and cook

SPECIAL NOTICES. SICK KIDNEYS.

The kidneys are the weak link in the chain of life, and are daily carrying thousands of victims to untimely graves. Ninety men and women in every hundred have kidney trouble and don't know it, because it's only when the trouble reaches an advanced stage that it's recognized as kidney disease.

an advanced stage that it's recognized as kidney disease.

We imagine we have dyspensia, heart disease, nervous prostration and a hundred and one ills, but uine times out of ten the real trouble is that the kidneys are so weak and diseased that they are utterly unable to carry the waste matters out of the body, and the uric acid accumulates in the system and slowly but surely paves the way for Bright's disease, diabetes, blood poisoning and a horrible death in convulsions. Ask your doctor if this is not good, solld common sense.

EXAMINE YOUR URINE
It's the infallible test of kidney trouble.
